Information for Referring Doctors

- Please send referrals via **email, fax, or HealthLink.** To avoid duplication, please submit each referral through **one pathway only.**
- Please ensure all patient details are clearly written and up to date, including current contact information, to help us contact patients promptly.
- Referrers are welcome to contact our practice to confirm receipt of a referral or to discuss the urgency of a patient's appointment if required.

Please read the reverse for patient information

PATIENT INFORMATION

Baw Baw Physicians
Cardiovascular Rapid Access

Important Patient Information

THIS IS NOT AN EMERGENCY SERVICE.

- Patients with ongoing, worsening or severe chest pain, significant difficulty breathing, syncope with concerning features, or other acute deterioration should seek urgent medical assessment and should not wait for an outpatient appointment.
- Patients with new or recurrent symptoms suggestive of stroke/TIA - including facial droop, arm or leg weakness or numbness, difficulty speaking, sudden vision change or loss of balance - should seek emergency medical attention immediately, even if symptoms have resolved.

Referral Process

Your referral will be reviewed by our clinical team and you will be contacted with an appointment as appropriate. If you have not heard from our team within 5 business days of this referral being sent, please call us on 5623 0690 to check the status.
